Siddharth P

AI Systems Engineer | Agentic AI - Enterprise AI Infrastructure - AI Product Engineering

+91 74835 57950 | siddharthprashoo@gmail.com | Portfolio | GitHub | LinkedIn

SUMMARY

AI Systems Engineer focused on agentic applications and enterprise AI infrastructure. Builds auditable human-agent workflows, local-first retrieval systems, model and tool integrations, and full-stack AI products using Python, FastAPI, TypeScript, Next.js, Flutter, and Firebase.

EXPERIENCE

AI/ML Intern - Equvinoxis Pvt Ltd | Bengaluru | Jun 2025 - Jul 2025

- Contributed to research and prototyping for AI-assisted facial analysis of pilot stress, spanning feature extraction, model experimentation, and human-lab evaluation.
- Worked with multimodal signals and documented experiments to support clear comparison of approaches and findings.

SELECTED PROJECTS

PayGuard-AgentX | Enterprise agentic prototype

Offline-first retail control centre with LangGraph supervision, 7 specialist agents, critic loops, 8 schema-bound MCP tools, HMAC-signed evidence dossiers, and a human-only decision queue. Python, LangGraph, MCP, SQLite, Chroma, Kuzu.

NirmiqCodeSensei | Active local-first developer-learning system

Imports real repositories for senior-grade review, architecture mapping, code-grounded DSA, and explain-back practice; uses MCP integrations and a localhost SQLite data layer with no telemetry. Next.js, TypeScript, SQLite, Drizzle, MCP.

NirmiqResearchOS | Active academic-intelligence MVP

Local research workspace with hybrid BM25 and vector retrieval, reciprocal-rank fusion, citations, abstention, evaluation flows, and Ollama inference. Python, FastAPI, Next.js, Chroma, SQLite, Ollama.

OriginX-T | Active LLM dataset-forensics capstone

Time-aware system for synthetic, recursive, paraphrased, and benchmark-leakage risks before fine-tuning damage compounds; combines conformal prediction, survival analysis, and SHAP explanations. Python, PyTorch, Transformers, PEFT, MLflow.

SKILLS

Agent systems: Agent orchestration, MCP, LangGraph, tool contracts, human approvals, audit evidence, evaluations
AI and backend: Python, FastAPI, local AI, RAG, hybrid retrieval, Ollama, REST APIs
Product: TypeScript, Next.js, React, Flutter, Firebase, responsive and accessible UI
Data and delivery: SQLite, PostgreSQL, Chroma, Docker, GitHub Actions, CI/CD, Git

EDUCATION

B.E. Artificial Intelligence and Machine Learning - B.N.M. Institute of Technology, Bengaluru | 2023 - 2027 | CGPA: 8.61/10
